

SUMMARY

Flutter Developer with 3 years of experience building high-performance Fintech and enterprise mobile applications. Skilled in Flutter, Dart, GetX, BLoC, Firebase, and Clean Architecture. Experienced with payment gateways, secure authentication, and scalable REST API integrations. Strong focus on performance optimization and production-ready development.

TECHNICAL COMPETENCIES

Frameworks: Flutter
Languages: Dart, Java, Kotlin, Swift
State Management: BLoC, Provider, GetX
Architecture Patterns: MVVM, Clean Architecture
UI/UX: Responsive Layouts, Material Design, Custom Animations
Backend: REST API, Firebase, Node.js, Express.js
DevOps & Tools: Git/GitHub, GitLab, Jenkins, Linux, Docker, CI/CD
Testing: Unit Testing, Widget Testing, Debugging, Performance Optimization

EDUCATION

Master of Computer Applications (MCA) 2023 - 2025
Shivaji University | Kolhapur

Bachelor of Computer Applications (BCA) 2020 - 2023
Shivaji University | Kolhapur | CGPA: 7.13

RECENT EXPERIENCE

Calyx Solutions UK Ltd (FinTech) June 2025 – Present *Flutter Developer*

- Developed around 10+ international payment mobile applications with end-to-end encryption, biometric authentication, and Firebase push notifications, serving users across the UK and Europe.
- Integrated multiple payment gateways including Payceler, AccessMS, VolumePay, and Trust Payments.
- Collaborated with backend and integration teams to ensure smooth API integration and worked on Agile/Scrum environment.

Quantum Infotech Private Ltd June 2022 – June 2025 *Flutter Developer*

- Built and maintained 15+ cross-platform mobile applications using Clean Architecture, reducing code duplication across projects.
- Implemented **Provider**, **BLoC** and **GetX** for state management across complex applications.
- Collaborated with clients to gather requirements and deliver features aligned with business needs.
- Conducted code reviews, led debugging sessions, and developed reusable UI component libraries adopted across multiple projects.

PROJECTS

KoboTrade App (International Payments)

(Paga wallet integration, GBG ID scan integration)

- Built a cross-platform mobile app enabling international payments from Canada to Nigeria through a digital wallet.
- Integrated the Paga wallet payment gateway to provide seamless, cost-effective international transactions.
- Implemented push notifications, biometric authentication, KYC verification, secure login, and WebSocket-based real-time updates.
- Play store: [Kobotrade/playstore](#) | App store: [Kobotrade/appstore](#)

Alpha & Omega Money Transfer *(International Payments)*

(Card payment integration, Bank payment integration)

- Developed a UK-to-global payment application supporting card payments and bank transfers.
- Integrated payment gateways including **VolumePay** and **Trust Payments**.
- Implemented **Didit** KYC verification for secure identity validation.
- Play store: [Alphaomega/playstore](#) | App store: [Alphaomega/appstore](#)

TassaPay *(International Payments)*

(Google Pay, Apple Pay, Meta SDK, Deferred deep linking)

- Developed a cross-border remittance application enabling money transfers from European countries to Asian countries, supporting multiple currency pairs.
- Integrated **Paycel**, **Google Pay**, and **Apple Pay** payment gateways.
- Implemented **Sumsb** KYC verification for identity authentication.
- Play store: [TasssaPay/playstore](#) | App store: [TassaPay/appstore](#)

Swaroop Oil App *(Order Management)*

(Google Maps, Live location tracking, Stock management)

- Developed a role-based order and coupon management application for field sales teams, supporting real-time tracking and inventory management.
- Integrated Google Maps API for real-time field employee location tracking visible to administrators.
- Implemented a role-based system with Admin, Account Manager, and Sales Employee access, reducing manual reporting effort for management.
